1. Follow one flagged invoice

Before edit	
Net	25
Tax	1
Gross	26

Edit gross

26 → 14

Flagged row	
Net	**25**
Tax	**1**
Gross	**14**

25 + 1 ≠ 14: the total is inconsistent

2. Search the clean population

20 clean triples: net + tax = gross

Net / tax match

(25, 1, 26)

Gross match

(10, 4, 14)

Every single target value has a normal match.

3. Keep each minimal explanation

{net, gross}

(25, 14)

{tax, gross}

(1, 14)

No joint match; either field alone has support.

All three fields: redundant
